To Whom It May Concern:

In April 2006, the ALM Division of The Salvation Army was delighted to have Stormie Sheldon our guest speaker, who presented "Memories... You can't live with them, and you can't live without them..." to our eager delegation. She brought such a powerful energy to our conference which both moved and motivated our participants. Her story inspired, her sincerity impressed, and her humor entertained. The overwhelming response was that everyone just loved her.

To this day, everyone is still talking about Mrs. Sheldon's distinguishing character, her personal passion and compassion, and the inspiration shown throughout the entire presentation. Stormie touched people by making them laugh and cry at the same time. I've had women come and tell me this was the best ever women's retreat they've been to in our Division. The ladies also appreciated the fact that Stormie made herself readily available to fellowship and celebrate with them during her free time at the conference. As an inspirational artist, Stormie uses her God-given abundance of talents to preach His gospel and lead those who are lost to the Savior.

Of course there are many speakers out there. However, there aren't many who will captivate, interact and hold your audience spellbound. If you need a professional speaker who loves the Lord and share His greatness with others, you definitely need to consider contacting Stormie Sheldon for your church events.

Stormie is truly a living testimony that God can move mountains for us if we simply trust and believe in Him!

Blessings!

Jacquelynn Johnson

Jacquelynn Johnson, Major
Divisional Secretary of Women's Ministries
